FAMILY SHOW

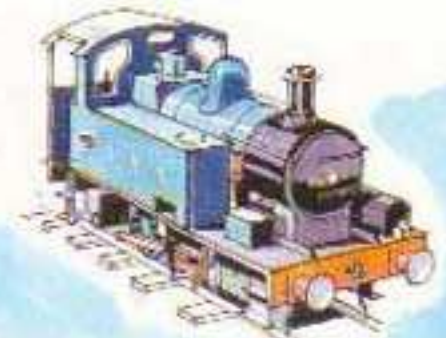

JUNE 14 - 15
NORTH WEALD AERODROME ESSEX

OFFICIAL PROGRAMME

50p

9.30am UNTIL 6pm

LUCKY DRAW
NUMBER
No. 0683

Flying Jet Dutch Team

Jo Koullen is the pilot and designer and constructor of the planes and takes care of the equipment and electronics, he was national Pylon Champion for eight years (1970/1978). Helping to launch and refuel the planes are team members Wiel Downen and Hans Meurs without whom it would not be possible to give a demonstration. All the models are controlled by a Simprop SSM Special and SAM. Three functions are needed, ailerons, elevator combined by electronic mixer and a servo operated combined fuel shut-off and fuel pressure regulator. The fuel is kerosine and every plane carries one litre fuel for 2 min. flight time.

SHADOW II

Span 42"
Length 62"
Weight 3000gr (6.5lbs)
St. Thrust 7kp (44lb)

F-16

Span 47"
Length 75"
Weight 4700gr (10lbs)
St. Thrust 7kp (44lb)
